PURCHASED POWER ADJUSTMENT CLAUSE (PPAC)		
<p><i>Fairport Municipal Commission has a contract that allows us to purchase inexpensive hydro power. We are limited in the amount of hydro power that we are allowed to purchase. Power purchased over the limit is supplemented by power purchased from the New York Municipal Power Authority (NYMPA), which is much more expensive and subject to market rates. The PPAC rate reflects the amount of the supplemental power purchased plus charges for transmitting the power, ancillary charges, and loss factors. We are regulated by the New York State Department of Public Service.</i></p>
